of the age of steel which is bringing discomfort and danger to many people who use the streets in the central business district. Somewhere in almost every block a steel skeleton for a skyscraper is rising, and in these skeletons pneums to drills and riveters are at work. Some of these are at work at such heights that the infinitesimal bits of steel broken off drift incredible discances with the winds, finding lodgment in the eyes of the people. In consequence eye doctors are busy.

When a Sore or Ulcer is slow in healing it is the best evidence of a diseased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood absorbing the waste matters becomes steeped in poison which finds an outlet through the Sore or Ulcer, keeping it inflamed, painful and fester-

ing. As the blood constantly discharges its poison into these places, they eat deeper into the surrounding flesh and tissues, growing not get it to heal. After taking S.
